Dear Mayor and Council

I am writing you in support of the Rezoning ( RZOO1634) and Development Permit (DVP002274) applications for the redevelopment of property on Spadina Avenue, with the purpose of building affordable housing for Seniors, low-income families and individuals with mobility challenges. This project, a partnership with Cheam View United Church and Mamele'awt Qweesome Housing Society, will bring much needed affordable housing options for our community members who are struggling to meet their housing needs. I believe this project will deliver direct benefits throughout the broader Chilliwack community by providing adequate affordable housing to our community members.

My family history with that United Church goes back many generations, my grandfather who was FG Leary was an active member of that church and a very community active person and I know he would have been happy to see this new development come to fruition.

Thank you....

Regards

Lynda Wiebe
